

HU YIFAN

Personal details

Sex : female
Birth of date: 1999/3/16
Age : 25
Major : computer science
Minor : Mathematics

Contact

telephone: 18918936863
email: 595674464@qq.com

Personal advantage

- ✓ Major in computer science, minor in Math
- ✓ Deep understanding in cutting-edge technology
- ✓ Passionate and interested in multidisciplinary science and mathematics.
- ✓ Deep immersion user of several social media platforms
- ✓ Experience in editing wechat account
- ✓ Strong oral presentation and writing skills in English
- ✓ Capable of direct communication in English.
- ✓ Basic proficiency in German.

Objective

- General deep understanding in cutting-edge technology
- Multiple experience in AI start-up
- Highly-motivated in being exposed to diverse culture
- Deep understanding in modern art, literature and movies

Working Experience

2025.1—
2025.6

Cofounder
& CTO

Led an AIGC application project at the intersection of spatial intelligence and 3D generation. Conducted in-depth research on generative model pathways for reconstructing interactive 3D scenes from multimodal data. Defined the technical roadmap, selected and fine-tuned model architectures, and oversaw integration into scalable product pipelines for immersive spatial applications.

2024.10—now

Full time:
Full-stack
developer

VV4G Technologies Ltd.

AI-driven Otome Game start-up

1 full-stack development:

Use tRPC framework to develop(Next.js, TRPC, T3, Typescript, drizzle, Tailwind, Zod) use cursor to develop a chatbot system / sentiment analysis

2 get used to the fast pace environment in startup

Yovole Network SHANGHAI

2020.6—2020.8

Internship:
Big data
engineer

cloud computing, internet data center (IDC)

1, cloud platform monitoring: configured and maintained ELK framework and collected the user log to analyze data

2, maintain microservices platform: learned and used spring cloud

2019.12—2020.1

Internship:
Deep learning
engineer

Wavelet. SUZHOU

start-up Collected EEG, EMG to develop product based on the designed chip and algorithm

1, dynamic hand gestures translating algorithm design:

designed algorithm(like transformer)from the beginning of project.

2, Gained experience in AI start-ups with a dynamic atmosphere.

Education background

2020.8 – 2024.6 Bachelor of science University of Sydney

Major: Computer science

Minor: Math

Skills

- ✓ Language: mandarin, English, German
- ✓ Coding Language: Python R java C
- ✓ technology stack: fullstack in Trpc
- ✓ Knowledge: Comprehensive understanding of multifaceted science, technology, modern art, literature movies and business.
- ✓ Advantages: Motivated to apply novel strategies like AI in manufacturing plants.
- ✓ Experience: promotion experience in trading business
- ✓ Certificates: Goethe language course proof in German B1.1

Project experience

2020.12-2021.2 dynamic hand gesture translating using EMG

2022.3 -2022.6 build database and trading system in c
Multi process project in c
